

WHATS HAPPENING AT CLIPPERS

7TH AUGUST 2020

IMPORTANT REMINDER AROUND FOLLOWING COVID SAFE RULES

We were reminded this week of the importance of following the rules in relation to the current COVID-19 pandemic. As a result of the actions of certain individuals a couple of Queensland associations have been forced to suspend play for a short time due to deep cleaning in their venues from the latest outbreak in the South-East corner of the state.

To ensure that we continue playing here on the Sunshine Coast we remind all of our players and guests that you should not be attending the stadium if you are feeling unwell and if you have any flu type symptoms that you please see a doctor and undergo a test if they request for you to get tested.

In addition, we also ask that people respect the protocols in place at the stadium including:

- Signing in and out whenever you enter or exit the stadium
 - The only exception is for players when they are playing in a game
- Use the hand sanitiser available around the venue and
- Spray all basketballs being used with the COVID-safe spray before use
 - Please do not bring basketballs to games
- We also ask that spectators respect the space of others and you should be maintaining social distancing measures away from those who do not come from your household.
