# 2026 ANNUAL REPORT

04.03.2026

## 2026 PRESIDENTS REPORT

It is my pleasure to present the President's Report for the previous year to date.

Over the past year, our club has continued to make significant progress both on and off the court. The commitment of our board, committees, volunteers, coaches, staff, and players has ensured we remain focused on growth, sustainability, and improving the experience for all members.

### Facilities and Infrastructure

One of the major achievements this year has been the successful completion of our amenities project. I'm pleased to report that the project was delivered on time and under budget — a tremendous outcome and a testament to the strong oversight and planning involved.

In addition, our extension project continues to move forward. Development Approval (DA) has now been secured, and we are currently working through the Detailed Design phase. Once completed, we will be shovel ready.

We have also commenced discussions with council representatives, as well as state and federal stakeholders, to secure funding support for the extension. This project represents an important step in meeting the growing needs of our club and future-proofing our facilities.

### Governance and Member Engagement

The Board has been actively reviewing member engagement and communication processes. A key initiative underway is the continuation of our member feedback forms and surveys, designed to better understand member experiences and priorities. Your input will play an important role in shaping the direction of the club.

We have identified that improved communication between the club and teams is needed.

Clearer, more consistent communication channels will be a priority moving forward to ensure members feel informed and supported throughout the season.

## **Committees and Competition Structure**

To strengthen support at all levels, we are working toward making the Junior and Senior Committees more prevalent and active. These committees will play a greater role in assisting teams, supporting coordinators, and helping reduce forfeits — an issue that affects competition integrity and overall member experience.

The Board is also reviewing our competition structure and exploring a new model designed to improve sustainability and competitiveness. Further details of the proposed options will be shared in an upcoming survey, giving members the opportunity to provide feedback before any changes are implemented.

## **Acknowledgements**

I would like to sincerely thank our staff for their professionalism, commitment, and the work they do behind the scenes to ensure the smooth operation of the club. Their dedication often goes unseen but is critical to our success.

I also extend my appreciation to our board members, committee members, volunteers, coaches, players, and supporters. Your time, energy, and passion are what make this club strong.

## **Looking Ahead**

As we reflect on the previous year, it is clear that our club continues to grow and evolve. With strong infrastructure planning, a focus on governance improvements, and a commitment to better member engagement, we are positioning ourselves well for the future.

I look forward to another successful year ahead as we continue to move forward and grow stronger.

Thank you.

Regards,

Michael Goff  
MEBAI President.
